Skilled in tools like Docker and Jenkins, with a focus on optimizing software delivery and system performance. Eager to apply technical skills and contribute to efficient, scalable solutions.

SKILLS/TOOLS

- Docker
- Jenkins - CI/CD
- Version control System
- Git & Github
- Amazon web services

EDUCATION

K.P.B. HINDUJA COLLEGE OF COMMERCE

Bachelor of Computer Application
2017 - 2020

WORK EXPERIENCE

Datavail InfoTech Pvt Ltd

Nov 2022 - Feb 2025

Designation - Database Administrator & support

Job role:

- The primary goal was actively monitoring a database dashboard to ensure continuous high performance, availability, and security of the database environment. By keeping a close watch on critical performance indicators and reacting proactively to any alerts, database administrators can mitigate risks and prevent issues from affecting users or applications.
- Constantly track the health, performance, and efficiency of the database systems, ensuring they are running smoothly at all times.
- Use monitoring tools (e.g. SQL Server Management Studio) to identify and address issues.
- Identify performance degradation or potential problems before they impact the system or users.
- Analyze logs and performance metrics to spot trends that may indicate emerging issues.
- Continuously monitor a dashboard that displays real-time performance metrics of the database, such as CPU usage, memory consumption, disk space, and other data's.
- Dashboards typically integrate with tools like SQL Server Management Studio (SSMS) & Techboost to give us an at-a-glance view of the health of the database.
- Responsible to create a pipelines for POC projects using Jenkins.
- Worked on docker to create java based project images and containers.

Agami Tech Pvt Ltd

April 2022 - Nov 2022

Designation - Pre Sales

Job role:

- Delivering presentations and demonstrations to prospective and current clients.
- Helping the sales team to reach targets.
- Conducting research into the industry.
- Potentially considering new markets or clients to contact, based on the knowledge of both the products and the business verticals.
- Determine the technical requirement to meet customer goals.
